

## OVERVIEW

Students study topics in each of the five key strands in mathematics: Number, Algebra, Geometry, Ratio & Proportion and Statistics & Probability. Each strand builds on their prior learning from Years 7, 8, 9 and 10. We will focus on building reasoning and problem-solving skills alongside exam technique to increase pupil independence in preparation for their Mock exams.

## Aut

**Unit F27: Mixed Proportion** – solving problems with recipes, exchange rates and best value

**Unit F28 – Fractions and Percentages** – reviewing key fractions, decimals and percentages skills including comparing and applying different methods.

**Unit F29 - Perimeter, Area and Volume** - recapping how to find the area and perimeter of a range of 2D shapes and applying these skills to functional questions

**Unit F30 – Mixed Ratio** – learning how to spot the different styles of ratio questions and problem solve

**Unit F31 – Algebra Review 1** – solving equations, simplifying expressions including with indices, expanding and factorising single brackets

**Unit F32 – Working with Circles** – practicing finding the area and circumference of circles and applying these skills to functional problems

**Assessment:**

Mock 1 takes place in Half Term 2.

Students will be informally assessed every lesson using questioning, mini whiteboards and marking of independent work.

There will be fortnightly Pre Seen assessments to prepare students for the full GCSE exams.

## Spr

**Unit F33 – Angle Reasoning** – apply angle rules to multi-step problems including within parallel lines and polygons and giving full lists of reasons

**Unit F34 – Right Angled Triangles** – use both Pythagoras' theorem and Trigonometric ratios to find missing sides or angles within right angled triangles

**Unit F35 – Algebra Review 2** – solving simultaneous equations, solving inequalities, expanding and factorising double brackets

**Unit F36 – Mixed Data and Probability** – reviewing key charts and diagrams and calculating probabilities and averages from them

*Classes follow a bespoke Revision Programme based on identified areas of need to prepare them for the final GCSE assessment.*

**Assessment:**

Mock 1 takes place in Half Term 4.

Students will be informally assessed every lesson using questioning, mini whiteboards and marking of independent work.

There will be fortnightly Pre Seen assessments to prepare students for the full GCSE exams.

## Sum

*Classes follow a bespoke Revision Programme based on identified areas of need to prepare them for the final GCSE assessment.*

**Assessment:**

Students will be informally assessed every lesson using questioning, mini whiteboards and marking of independent work.

There will be an End of Topic Review at the end of each unit.

There will be fortnightly Pre Seen assessments to prepare students for the full GCSE exams.

**Useful resources for supporting your child at home:**

REVISE Pearson Edexcel GCSE (9-1) Mathematics ([link here](#))

**Homework:**

Year 11 homework will be set once a week and paper based.

In week B homework will be to complete a shadow paper in preparation for their Pre Seen exam. In week A their homework will be selected exam questions based on feedback from their Pre Seen exam.
