

Student Leadership at

Salford City Academy

The best in everyone™

Part of United Learning

At Salford City Academy, we believe in providing an *Education with Character*. This means that we do not just focus on academic success - we also aim to develop character, compassion and a sense of responsibility in our students throughout their time with us.

Our Student Leadership programme supports this value, offering students the opportunity to take an active role in academy life, improve their confidence and further expand their knowledge and experience - all crucial to ensuring their success when they eventually depart for further education and/or the world of work.
