

OVERVIEW

The Geography curriculum at Salford City Academy inspires a fascination in students about our world and its people. Geography provides pupils with a knowledge of diverse places, people, resources, and natural and human environments. It enables students to develop a deep understanding of the Earth's physical and human processes allowing students to celebrate the opportunities and understand the challenges of a range of places. The curriculum ensures students can think like geographers and use their valuable geographic knowledge to make sense of the world around them. This will allow them to take part in the geographical debates of today.

Aut

Coasts:

Geology, waves, erosion and weathering, formation of headlands and bays, formation of wave cut platforms, formation of caves, arches and stacks, longshore drift, formation of spits, coastal management (hard and soft engineering), decision making exercise on coastal management, the Holderness Coast.

Population:

Population distribution, population growth, the demographic transition model, population pyramids, factors affecting population, population decision making exercise, the UK's ageing population, migration, Poland to UK migration (causes and impacts on the source and host country).

Assessment:

Coasts assessment.

Population assessment
(with interleaved
questions from coasts).

Sp

Tectonics:

Geological timescales, structure of the Earth, convection currents, plate boundaries, features of a volcano, volcanic monitoring and prediction, living near a volcano, reducing the impacts of earthquakes (prediction, planning and protection), earthquake decision making exercise, Japan earthquake (HIC), Haiti earthquake (LIC).

East Africa:

Human and physical features, population distribution, the River Nile Delta, conflict on the River Nile.

Assessment:

Tectonics assessment
(with interleaved
questions from coasts
and population).

Sum

East Africa:

Kenya's climate, trade in Kenya, tourism in Kenya, opportunities and challenges in Nairobi, decision making exercise.

Weather and climate:

Factors affecting climate, why does it rain?, UK climate, high pressure, low pressure, tropical storms, Hurricane Katrina.

Assessment:

East Africa assessment
(with interleaved
questions from coasts,
population and
tectonics).

End of year assessment.

Useful resources for supporting your child at home:

- BBC Bitesize
- National Geographic
- Seneca

Homework:

Homework will be set once a fortnight.

This will be either to complete assignments set on Seneca or using the knowledge organisers or glossary sheets.
